**Aero India Low on News and Excitement**

The overwhelming sentiment at the 12th edition of Aero India, currently underway at Bengaluru is of an airshow that has lost its spark. As compared to the previous edition of the show, exhibitors have drastically pared down their participation in terms of stall sizes and aircraft on display.

**Thales Gets 2.75-inch Rocket Launcher Order**

Thales has received orders from Hindustan Aeronautics Limited (HAL) for 2.75-inch (70-mm) 12-tube rocket launchers to be fitted on 18 Advanced Light Helicopters and 15 Light Combat Helicopters (LCH). The orders announced at the ongoing airshow, call for supply of 135 2.75-inch (70-mm)...

### **FOC for Tejas Light Fighter**

India's Tejas light fighter has formally received its Final Operational Clearance (FOC) and Release to Service Document (RSD), signifying the completion of development of the Tejas MK1 variant.

### **Boeing Prepares for India Deliveries**

US airframer Boeing, is preparing for a busy year in India, with deliveries of three different aircraft types. The airframer will start deliveries of CH-47F(I) Chinooks and AH-64E Apache helicopter deliveries...

### **MBDA Seeks to Grow India Presence**

Missile specialist MBDA, which continues with its successful run in the Indian market, is seeking to further increase its marketshare. The company is likely to see increased orders from the Indian military for air to air and air to ground weapons for their fixed wing and rotary wing fleets.

### **BEL to Proceed with Next Gen Weapons**

Indian state owned defence firm, Bharat Electronics Limited (BEL), is moving forward with plans to develop a new generation of Indian missile systems. At the ongoing air show, BEL entered into an MoU with an Indian start-up firm named JSR...
